Daly City Youth Health Center Announces “Spring for Youth” Gala
Hundreds of Community Leaders Gather on April 26, 2018 to Raise Funds for Critical Youth Health and Wellness Programs

Daly City, CA – The Daly City Youth Health Center today announced its [Spring for Youth Gala](#), an annual celebration that brings together over 200 business and community leaders, educators and philanthropists to raise funds and awareness for its vital mission of providing safe, respectful, comprehensive health services to underserved teens and young adults. For the last 28 years, the organization has helped more than 55,000 individuals living in Daly City, Broadmoor, Pacifica, Colma, Brisbane, South San Francisco and San Bruno.

The gala will take place on Thursday, April 26 from 6 p.m. to 9 p.m. at Patio Español restaurant in San Francisco and will include scrumptious food and cocktails as well as a live and silent auction featuring exciting travel packages, unique wines and tickets to popular sporting and arts events.

This year’s event is especially celebratory, given the upcoming opening of The Daly City Youth Health Center’s new facility this summer. The new wellness center will enable teens and young adults to receive comprehensive services – including primary health care, counseling and comprehensive sexual health education – within a single structure without having to visit separate locations, as is currently the case.

This evening’s honoree will be Kyle Ekberg, who works at Genentech and has volunteered with the Daly City Youth Health Center’s Education Program for more than six years, teaching students about critical health and sexuality topics. Thanks to Ekberg’s support and dedication, over 1,200 local students receive comprehensive sexual health education each year.

The Daly City Youth Health Center is a community wellness center providing excellent primary health care, counseling services, and comprehensive sexual health education for low income and underserved youth, ages 12 to 24. The organization provides support and guidance that helps teenagers and young adults make smart decisions to set them on a track for a healthy and productive life.
